LS2 APPAREL Collection 2021-22

LS2

Apparel

2021-22 Collection

The commitment to the safety of the motorcyclists has allowed LS2 to look beyond the helmets, to complete the development of an apparel collection dedicated in particular to the sports touring, touring, adventure and urban worlds:

Jackets, trousers and gloves speaking to a target interested in safety, quality and design. For a growing safe and comfortable riding.

Materials

500D & 600D Polyester Fabric

This fabric made of polyester yarn makes a perfect, form-fitting medium for areas at lower risk of impact, helping keep riders comfortable and in control. It is a European standard for the materials, colours, and reflecting power of protective apparel. The aim of the standard is to make the wearer highly visible under all conditions, whether in daylight or headlights.

Stretch Denim

Denim fabric retains the authentic look and feel of cotton denim, but with added abrasion resistance, and toughness. Are exceptionally durable without compromising on comfort and style. The heavier the denim, the more rigid, the garment and the more abrasion resistant it will be.

PU-coated Polyester Fabric

This stretch fabric made of polyester yarn makes a perfect, form-fitting medium for areas at lower risk of impact, helping keep riders comfortable and in control.

Membrane

Made totally of 100% polyester created with the special knit of this material makes it extremely stretchy, ideal for use in under garments and comfort-adding collars. It provides wind protection.

Polyester Stretch

This stretch fabric made of polyester yarn makes a perfect, form-fitting medium for areas at lower risk of impact, helping keep riders comfortable and in control.

Man & Lady

Nevada

Touring Jacket

NEVADA IS THE TOP OF THE RANGE THREE-PLY JACKET OF THE LS2 COLLECTION.

It features ventilation panels on the sleeves, reflective zippers, as well as two large front and one back opening (all openable by means of YKK zips) which ensure air flow when temperatures rise. The inside consists of removable thermal down and, as already said, of a waterproof membrane.

The three-ply NEVADA pants complete the jacket. Made of technical fabrics, they feature mesh inserts, which facilitate ventilation when the two inner layers are removed, and reflective inserts, which help make the rider more visible. Thanks to the Velcro fasteners on the leg, the pants can be tightened as required.

Urban Jacket

TECHNICAL PRODUCTS WITH PROTECTIVE ELEMENTS THAT MAKE THEM PERFECT FOR USE ON HIGH POWERED MOTORCYCLES.

PETROL, on the other hand, is a two-ply jacket with reflective inserts, making the rider visible even in low light conditions and featuring large mesh areas on the sides and back, which make it possible to also use the jacket in summer after removing the internal rainproof membrane. Both garments have removable EN1621-1: 2012 Level 1 CE protectors on the shoulders and elbows and feature a back pocket to insert the back protector. PETROL is available, men's sizes S to 5XL and women's sizes XS to 5XL.

Features

- Ventilation at front & back
- Neck Comfort Pad
- Reflective details improve visibility of the rider
- Adjustable snap closure at the collar.
- Adjustments on arm & cuff.
- YKK Front Zipper
- YKK Zipper Pants Ready
- Adjustable buckle at waist.

Man & Lady Gate

Racing Jacket

SPORTIVE, PROTECTIVE AND READY TO BURNT YOUR OWN PATH.

The latest collection additions end with the Racing world, of which GATE is part. This is a two-ply sports garment: the outer layer, in polyester, is waterproof and breathable, while the inner thermal liner is removable. The technical features are such as to make the garment perfect in terms of safety and comfort: the adjustable snap fastener on the neck, the presence of adjustments on the armband the ventilation zip on the sleeve and back enable the rider to face any challenge, in any condition.

Construction

WATERPROOF

IS INSTEAD AN URBAN-CUT JACKET WITH A CASUAL, SPORTY AND WRAPAROUND STYLE.

The design and colours follow vintage trends, but the fit and technical features are cutting-edge. The LS2 team has worked to achieve a very high level of comfort, thanks to the mix of cotton and polyester with leather inserts, without neglecting technical aspects such as waterproofing (the jacket can withstand a water column of up to 5000mm) and ventilation in case of high temperatures.
